PROFILE

Marketing specialist with nearly five years of experience in content, copywriting and email marketing. My writing started with **KYNO**, the film platform I co-founded in 2019 and grew to 10,000+ followers with a 10-person team. Since then I've managed content for 100+ websites in 10+ European markets, and I now freelance in email and lifecycle marketing, covering copy, automation and segmentation. I work with AI tools throughout to draft, localise and analyse faster.

Based in Tallinn and learning Estonian, I'm looking for a marketing role where I can own a brand's voice and grow with the team long-term.

PROFESSIONAL EXPERIENCE
